

SpaceTEC® K-12 Schools-to-Space

Funded in part by the NSF National Resource Center for Aerospace Technical Education

With Permission: "Miss Universe" Copyright by John Doe (www.john-doe.co)

SpaceTEC® has recognized a need for STEM educator resources when it comes to teaching space related activities. Working with various partners, SpaceTEC® has launched an outreach program to provide primary and secondary STEM educators the tools to teach space, with an emphasis on the role of a Nationally Certified Aerospace Technician® in the aerospace industry.

Visit the website: schools-to-space.com

HIGHLIGHTS:

- STEM educator workshops with lesson plans, worksheets, readings, activities, and projects.
- Schools-to-Space.com (STEM educator and student portal to space education resources)
- Partnerships and dual enrollment opportunities
